INNOVATIVE SURFACES

P A N E L S A N D S O L U T I O N S

A PRODUCT COLLECTION BY ILCAM GROUP,
EUROPE'S NO.1 MANUFACTURER
OF FURNITURE COMPONENTS

INNOVATIVE SURFACES is a project by ILCAM Group. With an annual production of over 30 million units, 1,300 employees and an export volume of 95%, the group is Europe's top producer of components for the furniture industry.

Uniting the forces of six companies, ILCAM, LICAR, LANTA, ILMEST, ILROM and TPS, each American dialect in one or more processes to offer a total of eight technologies, ILCAM Group produces frontals and panels of every type and finish, plus kitchen carcasses.

The almost infinite range of ILCAM Group solutions is the culmination of a design and manufacturing philosophy founded on constant alignment with new design trends, possession of a solid knowledge base and use of the most advanced machinery.

ILCAM Group cares deeply about sustainability, pursuing it in every aspect, with a firm commitment to laying the foundations in environmental, economic and social terms for a better today and tomorrow.

PANELS AND ACCESSORIES WITH INNOVATIVE SURFACES FOR PRESENT AND FUTURE INTERIOR DESIGN CONCEPTS

The new INNOVATIVE SURFACES collection by ILCAM Group combines panels and accessories with new surfaces featuring styles inspired by the latest interior design trends and technical properties that guarantee extraordinary durability and green construction criteria.

LAMINLAC surface panels are one of the most advanced flat lamination technology products.

They offer a choice from an astoundingly vast catalogue of decorative foils, made with recycled materials, including up to 85% recycled PET, via a process that reduces CO2 emissions into the atmosphere by 60%. The panel itself is also recyclable.

An impressively vast range of colours is available, now updated with a high gloss (95 gloss) or super matt (five gloss) lacquered finish, one perfectly smooth and the other pleasantly velvety.

They both offer excellent resistance to scratches, abrasions and chemical agents. Pigment stability to UV ray exposure and an anti-fade paint layer ensures that colour stays true over time.
