INNOVATIVE SURFACES

P A N E L S A N D S O L U T I O N S

A PRODUCT COLLECTION BY ILCAM GROUP,
EUROPE'S NO.1 MANUFACTURER
OF FURNITURE COMPONENTS

INNOVATIVE SURFACES is a project by ILCAM Group. With an annual production of over 30 million units, 1,300 employees and an export volume of 95%, the group is Europe's top producer of components for the furniture industry.

Uniting the forces of six companies, ILCAM, LICAR, LANTA, ILMEST, ILROM and TPS, each American dialect in one or more processes to offer a total of eight technologies, ILCAM Group produces fronts and panels of every type and finish, plus kitchen carcasses.

The almost infinite range of ILCAM Group solutions is the culmination of a design and manufacturing philosophy founded on constant alignment with new design trends, possession of a solid knowledge base and use of the most advanced machinery.

ILCAM Group cares deeply about sustainability, pursuing it in every aspect, with a firm commitment to laying the foundations in environmental, economic and social terms for a better today and tomorrow.

PANELS AND ACCESSORIES WITH INNOVATIVE SURFACES FOR PRESENT AND FUTURE INTERIOR DESIGN CONCEPTS

The new INNOVATIVE SURFACES collection by ILCAM Group combines panels and accessories with new surfaces featuring styles inspired by the latest interior design trends and technical properties that guarantee extraordinary durability and green construction criteria.

TAKTO

TAKTO

TEOxture

Limitless creativity in finishes and textured patterns

TAKTO-TEXTure surface panels are the result of a unique technology which allows remarkably detailed industrial reproduction of any type of finish and decorative pattern on a layer of polybonded polymeric material.

The special foil structure assures superior resistance. Takto products are available in a rich range of standard styles, plus extra custom colour options achieved by adding colour in the layer, painting or applying foils also made with recycled materials.
